Fire Island National Seashore
Long Island, New York

2015 Tide Tables

Fire Island National Seashore

Fire Island National Seashore was established in September 1964 "for the purpose of conserving and preserving for the use of future generations certain relatively unspoiled and undeveloped beaches, dunes, and other natural features within Suffolk County, New York, which possess high values to the Nation."

Welcome to Fire Island National Seashore

This booklet contains the off-road vehicle rules and regulations for Fire Island National Seashore and the Moriches Inlet tides for 2015.

Driving permits are required for all off-road driving on Fire Island. Beach driving is permitted for some recreational uses and to a limited number of residents, contractors, essential service providers, public utilities, and official vehicles to gain access to communities within the park's boundaries. Unpermitted vehicles are restricted to roads and parking lots near the bridges connecting Fire Island to Long Island.

Stay Connected

Beach grass rhizomes and rootlets secure grains of sand that form the protective primary dune.

Dynamic Barrier Islands

From New York to Texas, a string of barrier islands skirt the coastline of the United States. Fire Island is one of five barrier islands along the south shore of Long Island. Barrier islands and barrier beaches are dynamic systems that are constantly moving and changing. They are shaped on a daily basis by tides, wave action, off-shore sand movement, and human manipulation. Major storms, such as Hurricane Sandy in October 2012, have a profound impact on the barrier island landscape.

Fire Island is 32 miles long with a south-facing shoreline, and has been migrating from the east to the west. The beach is constantly changing due to cyclic erosion and accretion of sand.

The dunes are the backbone of this dynamic barrier island that buffers Long Island from the forces of the Atlantic Ocean. Naturally formed dunes consist of multiple layers of sand held together by the roots and rhizomes of beach grass. Foot and/or vehicle traffic easily damages beach grass and its roots. To protect natural and cultural resources and help maintain Fire Island's remote character, beach driving is limited.

Thank you for your efforts to help preserve and protect Fire Island.

Enrollment in the Marine Fishing Registry is required to receive a sportsman's vehicle permit as a means of access for fishing.

Beach Driving Permits

A valid permit is required for every vehicle driven on Fire Island beaches. Each Fire Island National Seashore permit has its own stipulations and requirements. Smith Point County Park and Robert Moses State Park have separate recreational use permits.

Sportsman's Vehicle Permits (Recreational)

Recreational vehicles are permitted to drive on designated portions of Fire Island National Seashore beach (see map, page 12) as a means of access for fishing or hunting. Permits are issued at the Otis Pike Wilderness Visitor Center at Smith Point on or after September 1, for use between September 15 and December 31, unless beach conditions prevent or restrict driving activities. The cost of these permits is \$50.00. Call 631-281-3010 for hours of operation. A current NYS fishing and/or hunting license is required to receive this driving permit. A park issued hunting permit is also required for hunting on park lands.

Non-Recreational Vehicle Permits

A limited number of resident, contractor, public utility and essential service vehicles may be permitted access, subject to conditions established for each individual permit. Applications for non-recreational vehicle permits are made to the Office of the Superintendent at Fire Island National Seashore, 120 Laurel Street, Patchogue, NY 11772. Call 631-687-4758 for information.

Vehicles travelling east, with the ocean on their right, have the right-of-way.

Never drive on beach grass. The 20-foot "Rhizome Rule" was established to help protect and encourage the growth of dunes.

Off-Road Vehicle Rules and Regulations

Designated Use Only

Recreational vehicles are permitted on eastern Fire Island beaches for fishing and hunting activities only. Fishing and hunting rules and regulations regarding size and limit of catch are strictly enforced. Non-recreational vehicles are permitted access only under the conditions stipulated in each permit. Misuse of permit or failure to abide by regulations may result in a fine and/or loss of permit.

Checkpoints

All vehicles must access Fire Island National Seashore through checkpoints only. Permitted vehicles must have a driving sticker affixed to the passenger side front bumper and the permit must be kept in vehicle at all times.

Speed Limits

Speed limit is 5 m.p.h. within 100 feet of pedestrians (pedestrians always have the right of way), or when passing through or over dune crossings. Maximum speed on the beach is 20 m.p.h. Vehicles must abide by posted speed limits when driving in communities.

Weekend Restrictions

From September 15 through October 31, no entry is allowed on the beach between 9 am and 6 pm on Saturdays, Sundays, and holidays. Recreational vehicles that enter before 9 am may remain on the beach, but upon departure, may not re-enter until 6 pm. Contractors, residents, municipal and essential service drivers have additional weekend restrictions.

Prohibited Activities

Access other than through checkpoints, and riding on tailgates or bumpers are prohibited.

Stay 20 Feet Away from Dune Vegetation

To protect the primary dunes, this rule is strictly enforced. Drive at least 20 feet from the base of dune or vegetation line to protect the fragile root system (rhizomes). If surf approaches the 20 foot boundary, the beach will be closed to driving. Always stay to the seaward side of any posts. **Never drive on, through or behind the dunes.**

Time beach driving carefully. As a rule of thumb, Fire Island beaches are generally passable from 3 hours before to 3 hours after low tide.

Beach Closures

- Fire Island beaches may be closed to driving at any time due to storms, extremely high tides, or other hazardous conditions.
- Summer vehicle access is restricted to essential services and emergency vehicles such as fire apparatus and law enforcement.
- The beach from the Wilderness Visitor Center at Smith Point to the breach at Old Inlet will be closed to driving from March 15 through Labor Day or later if required, in compliance with the park's endangered species habitat protection plan.
- Recreational drivers may not enter the beach through the open emergency vehicle entrance when the recreational driving gate is closed.
- If the west end beach is closed, non-recreational permittees must use the inside route (Burma Trail).

Access to Fire Island Communities

When Fire Island National Seashore was established in 1964, its enabling legislation stated that seventeen communities and preexisting commercial uses would be allowed to remain as long as construction was consistent with zoning ordinances established by the Secretary of the Interior.

Today each community has its own character, providing a great diversity of experiences for visitors and residents.

A limited number of resident, contractor, public utility and essential service vehicles may be allowed to drive on the beach and over National Park Service land to access homes or provide services for the homes and businesses on Fire Island. *Home ownership does not automatically entitle one to a vehicle permit.*

On October 29, 2012, Hurricane Sandy created a breach through Fire Island at Old Inlet, located within the Otis Pike Fire Island High Dune Wilderness. Access to Fire Island National Seashore (west of Old Inlet) from the east, via Smith Point, will not be possible while the breach remains open.

A Fire Island School bus makes its afternoon route through the communities.

Photo Credit: Steven von Hagen

The ocean tide on Fire Island is semi-diurnal (twice a day). The average tidal range (amplitude) is about 4 feet.

Understanding Tides

Tide changes occur from east to west. Correlations between tides at two different points are neither exact nor consistent, but the map in this booklet (pages 12–13) will help you estimate the tide for your location. Keep in mind that storms or high winds may cause more extreme tides. In the table, the “feet” columns list how many feet above or below mean low water each tide is expected to be.

Tide Adjustments

Ocean Side, Fire Island:

- Talisman/Barrett Beach: + 10 minutes
- Fire Island Lighthouse Beach: + 15 minutes
- Fire Island Breakwater: + 18 minutes

on Great South Bay:

- Point O’Woods: + 3 1/2 hours
- Sayville (Browns River): + 4 1/2 hours
- Patchogue River: +5 hours

Driving Safety

For your safety, carry a jack and jack board, spare tire, shovel, tow line with chain or hook, tire pressure gauge, first aid kit, and fire extinguisher. Always lower tire pressure to 15-20 psi (pounds per square inch) to prevent washboard tracks. On the beach, stay in established tracks and at least 20 feet seaward of the beach grass.

If You Become Stuck in the Sand...

- Do not spin your tires. Spinning will dig the vehicle in deeper.
- Check to make sure you are in four-wheel drive.
- Lower tire pressure to **15-18 psi**. (Use caution below 15 psi.)
- Dig a small amount of sand away from the front and rear of all four tires.
- If you are really buried, jack up all four wheels in turn and shovel sand underneath.
- Slowly attempt to drive backwards into your tire tracks where the sand is compacted.
- Keep front tires straight while trying to free your vehicle.
- Proceed evenly, keeping up your momentum and speed without spinning your tires.

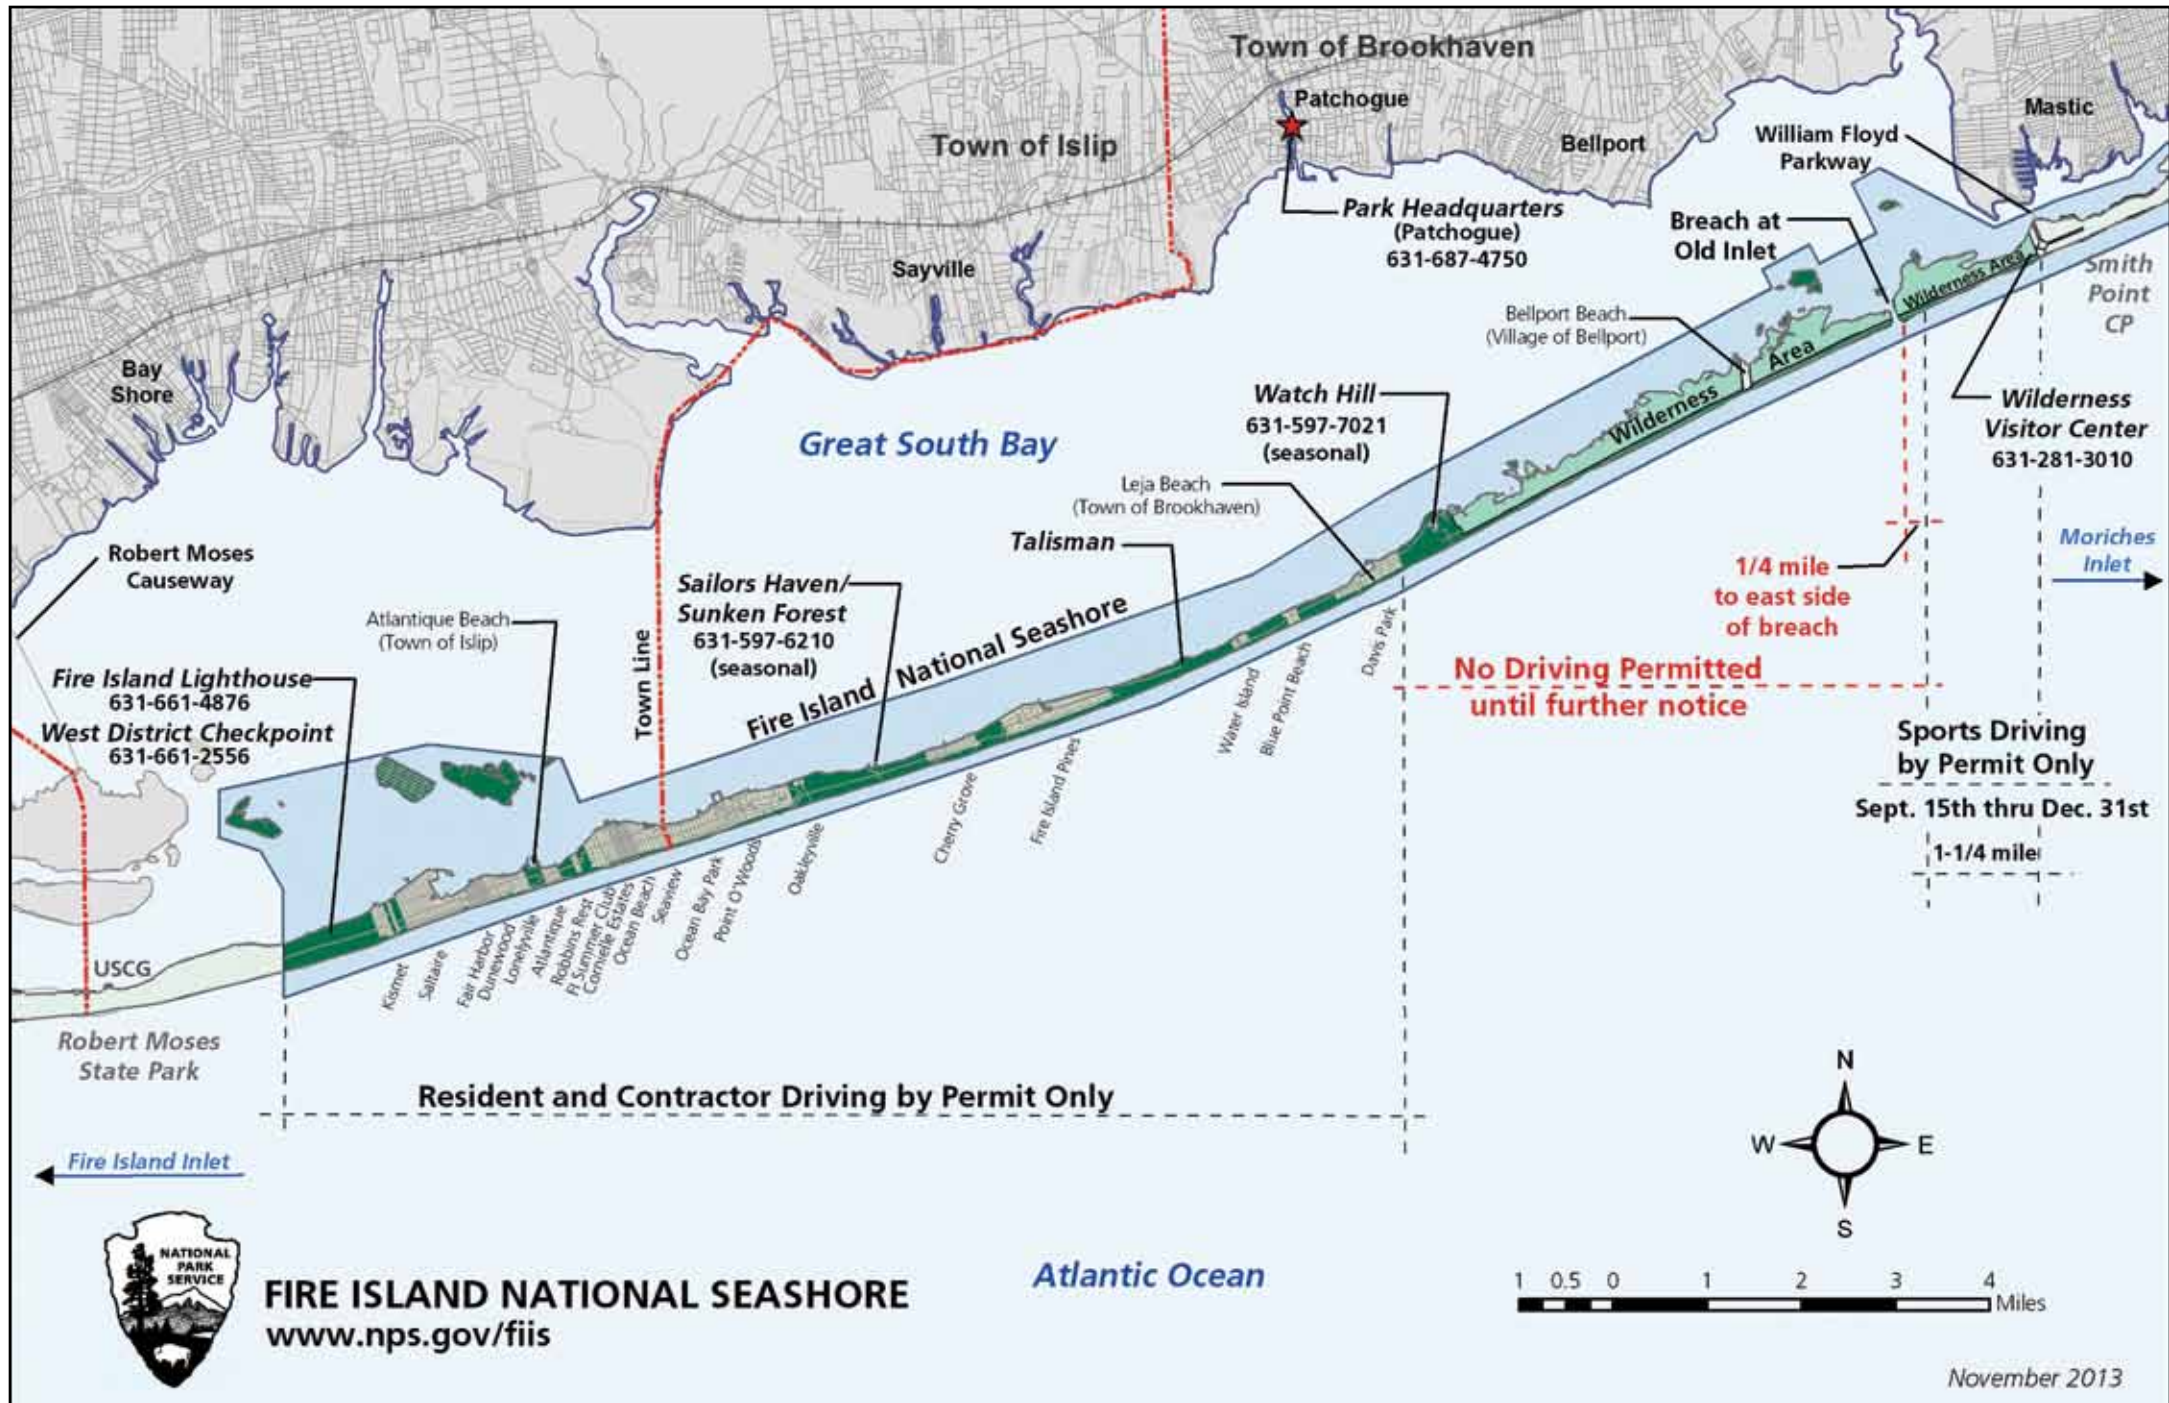

Tow Service is not readily available on Fire Island

T&E protection measures also include monitoring populations of colonial waterbirds such as least tern, common tern, roseate tern, and black skimmer.

Help Protect Threatened and Endangered species while driving on Fire Island.

Fire Island National Seashore has been monitoring the status of threatened and endangered (T&E) species that depend on coastal habitats since 1986.

Off-road vehicle restrictions help to ensure that these rare beach plants and animals are protected for future generations.

For more information: www.nps.gov/fiis

Piping Plover Hotline (May - September): **631-687-5030**

The Piping Plover, a federally threatened, NY state endangered shorebird, nests on Fire Island.

Seabeach Amaranth is a federally threatened plant that grows on the upper beach.

Poison ivy can cause an irritating rash at any time of year.

Enjoy Fire Island Safely

- Stay on the boardwalk to avoid poison ivy and ticks.
- Wear shoes on boardwalks to avoid splinters.
- Avoid grassy areas and check yourself frequently for ticks.
- Use sunscreen and insect repellent as needed.
- Follow safe boating procedures and etiquette, and wear life jackets.
- Swim only in life-guarded areas.
- Watch for rapid changes in weather conditions and lightning when on or near the water.

Adhere to all Park Rules

All natural and cultural features within Fire Island National Seashore are protected by law. Thank you for respecting regulations.

Help keep wildlife wild. Observe them from a distance. Never feed deer or other wildlife.

- Stay off the dunes and do not damage plants.
- Do not feed, touch, or harass wildlife; animals can be unpredictable and dangerous.
- When and where permitted, pets must be on a 6-foot leash and under physical control.
- Pets, kites, and glass containers are not permitted on life-guarded beaches.
- Stay out of all areas fenced for wildlife and plant protection.
- Metal detectors are not permitted on park lands.
- Building fires is strictly prohibited.
- Dispose of trash properly. Carry-In, Carry-Out.
- Fire Island personal watercraft (PWC) use is only permitted in the marked channels into some communities. PWCs must remain at least 1,000 feet away from the Atlantic Ocean shore and in the bay, PWCs must be 1,000 feet away from shore on the western end of Fire Island, and 4,000 feet away from the shore east of the western boundary of Sunken Forest. PWCs are not permitted into Sailors Haven, Barrett Beach/Talisman, Watch Hill or Old Inlet.
- Additional regulations are enforced.
